Freshman Year – Summa Cum Laude Service Offerings

Starting **NOW**, everything your child does both in and outside of school **counts** toward successful college admission. We work together as a team to make certain each student's plan and actions are pointed in the proper direction for his or her long-term educational goals. We encourage students to explore activities both within and outside of the school environment that enhance their strengths and challenge their weaknesses. We also encourage students to experiment with various extracurricular activities. Ideally one or two should be selected that will help shape a winning profile geared to college admission.

Andrea (Andi) Frimmer, M.Ed., the “get your kid into college” lady, will:

- **Meet** with parents and students to discuss higher education goals
 - Meet at the beginning of the school year to discuss the student's aspirations and ninth grade course selection
 - Conference after the first three weeks of school to review appropriateness of course load
 - Review quarterly to make certain that the student is maintaining good grades and following the action plan; in person meeting recommended
- **Design** four-year academic plan
 - Review course selection plan that challenges the student and assists in reaching his or her long-term college goals
 - Incorporate remediation of weaknesses into action plan
- **Update** student's profile
 - Add information that captures the essence of the student
 - Maintain a Brag Book that chronicles all extracurricular and school-based activities
- **Administer** personality and career assessment testing
 - Use the Myers-Briggs Strong Inventory Test to help determine your son's or daughter's personality traits can assist in career planning, and include determining your major area of study and college selection
- **Plan** summer and extracurricular activities
 - Collaborate on planning appropriate summer activities based on student's interests and expertise
 - Incorporate programs that will enhance college application such as internships and summer scholar programs in area of interest
